

DanaosONE Platform

Imagine ...

Securely accessing your corporate information and transacting with trusted users from a **Single Window**

a **Single Window** that is accessible from your browser, your smartphone and your tablet, anywhere, with your own device

a **Single Window** where NO information is contained outside of your Organization

a **Single Window** where employees, partners, suppliers and customers can securely access, selectively, corporate data

a **Single Window** that creates a Knowledge Hub for your organization improving transactability and transparency

OFFERED SERVICES

DanaosONE™ can “bridge” any functionality provided by your in-house back office systems within a network of trusted stakeholders of your selection (extranet). Join DanaosONE™ and start exchanging information accurately and securely with your suppliers, partners, agents, brokers and affiliates avoiding the cumbersome of traditional information exchange.

- Crew Management
- e-Sourcing
- RFQ
- Invoice Reconciliation
- Protocol/Registrar
- e-Drawings
- ...

INTERNAL SERVICES

Launch on-demand and expose to your internal users (intranet) certain in-house system functionalities as services. This set of services can facilitate two-ways secure remote access to corporate information and assure compliance with regulatory and statutory operational and safety processes.

- Task Management
- Project Management
- Annual Leaves
- Support Tickets
- Collaboration
- Communication
- ...

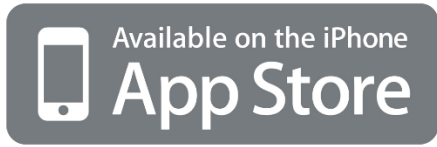

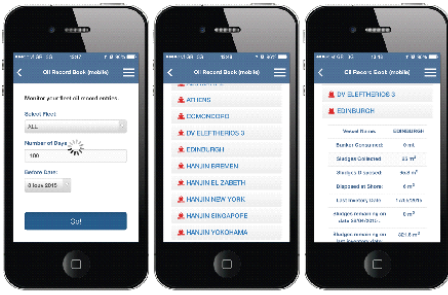

PLATFORM SERVICES

Joining DanaosONE™ will give you international exposure and endless possibilities to connect with other trusted members. DanaosONE™ provides a set of bundled services that facilitate Shipping Industry’s essential everyday activities whilst allowing exposure of your products and services, creating new business opportunities.
